antoniolupi

antoniolupi is an Italian company, based on Tuscany, dedicated to improving the quality of homes reinventing the bathroom spaces through a new bathing experience.

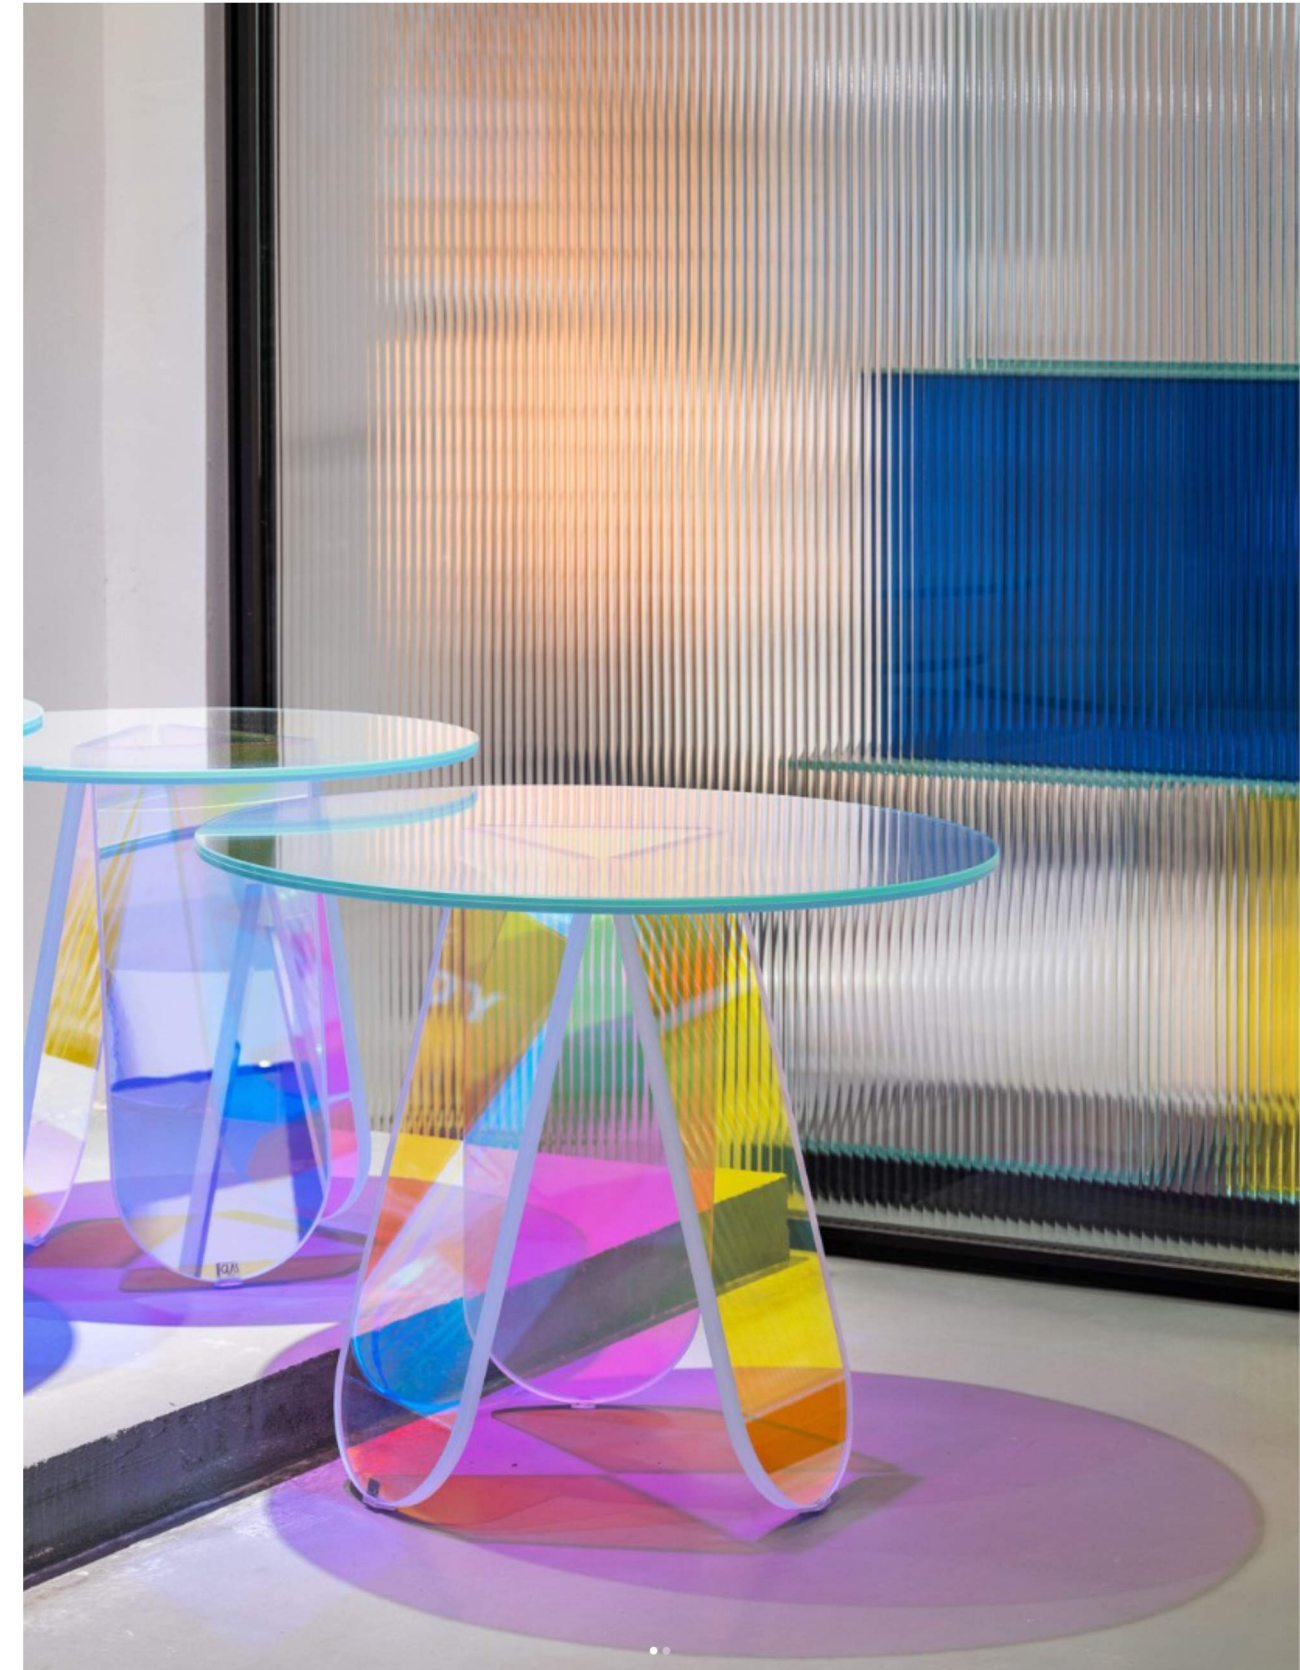

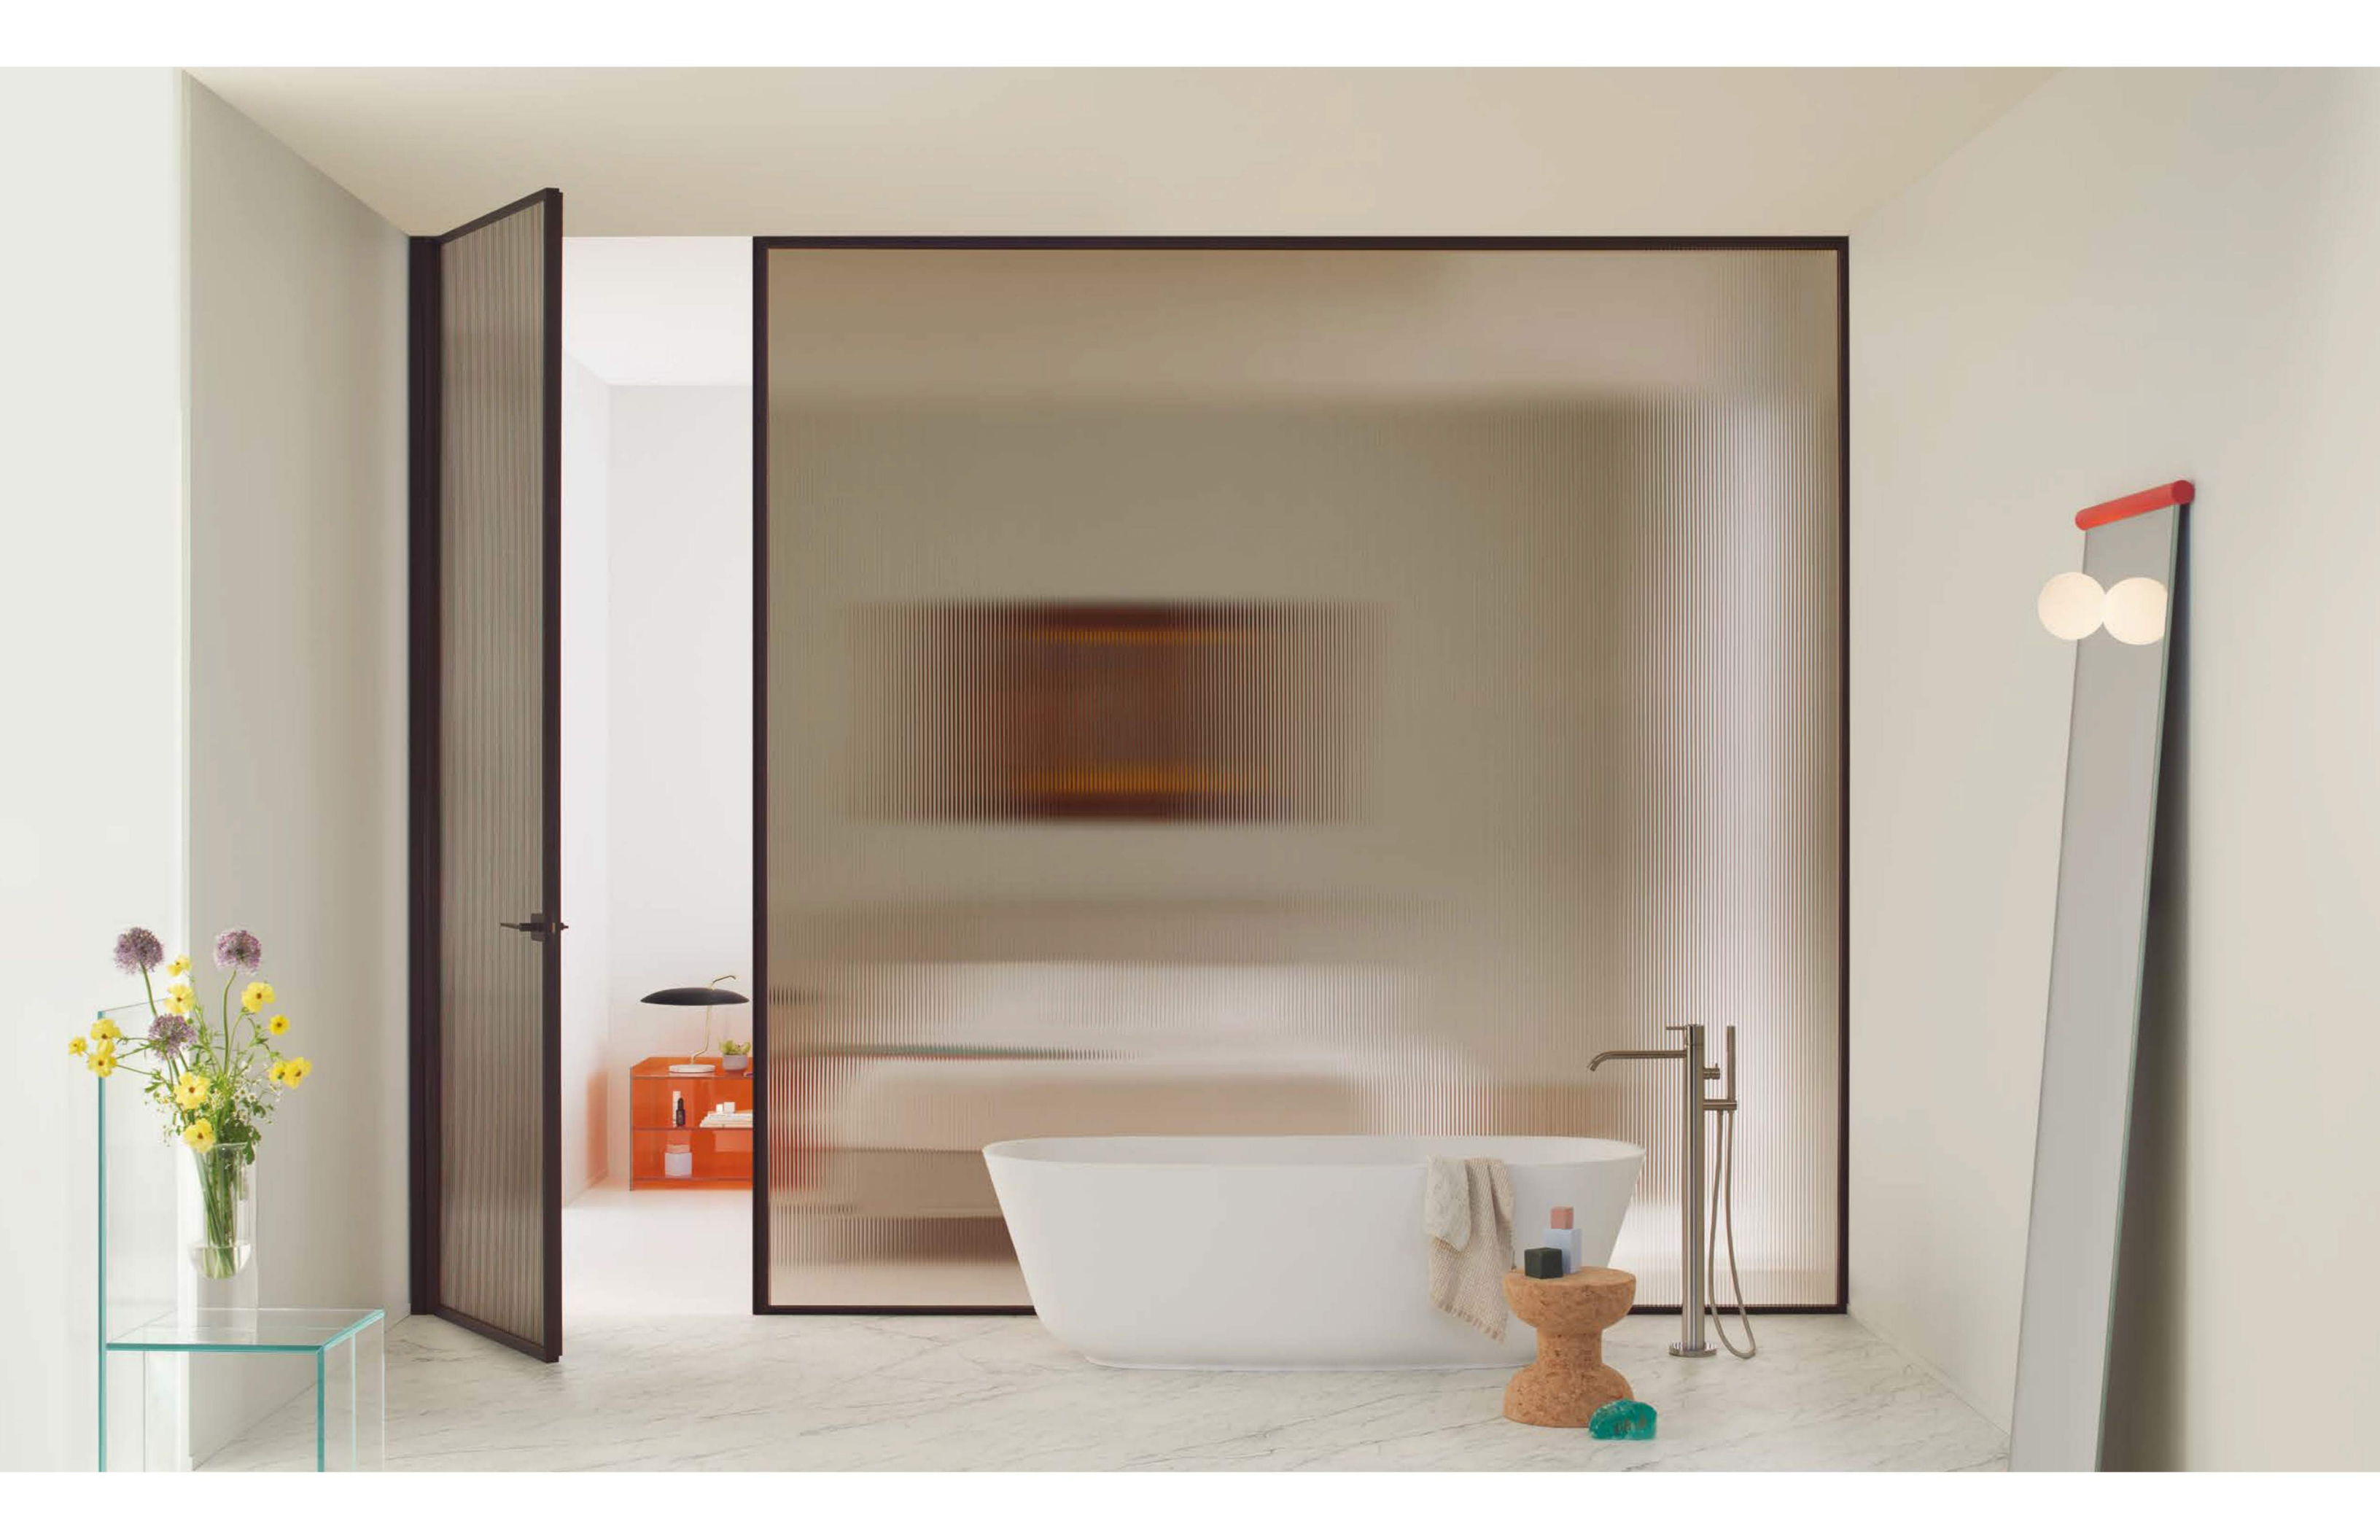

Glas Italia, established in 1972 in Brianza manufactures doors, wall partitions and glass furniture, supported by century-long experience of the family glass factory and driven by an inexhaustible passion for glass.

Research and design combined with the most advanced technology, in collaboration with internationally renowned designers, realizing the ideas of their creative talent come true. Sophistication, originality, intrinsic and formal quality are the salient features of all Glas Italia products that are equally adhered to in home, office and contract sectors.

SHIMMER coffee tables, design Patricia Urquiola - low tables in glass with a special iridescent multichromatic finish; the nuance varies according to the angle of the light source and the vantage point.

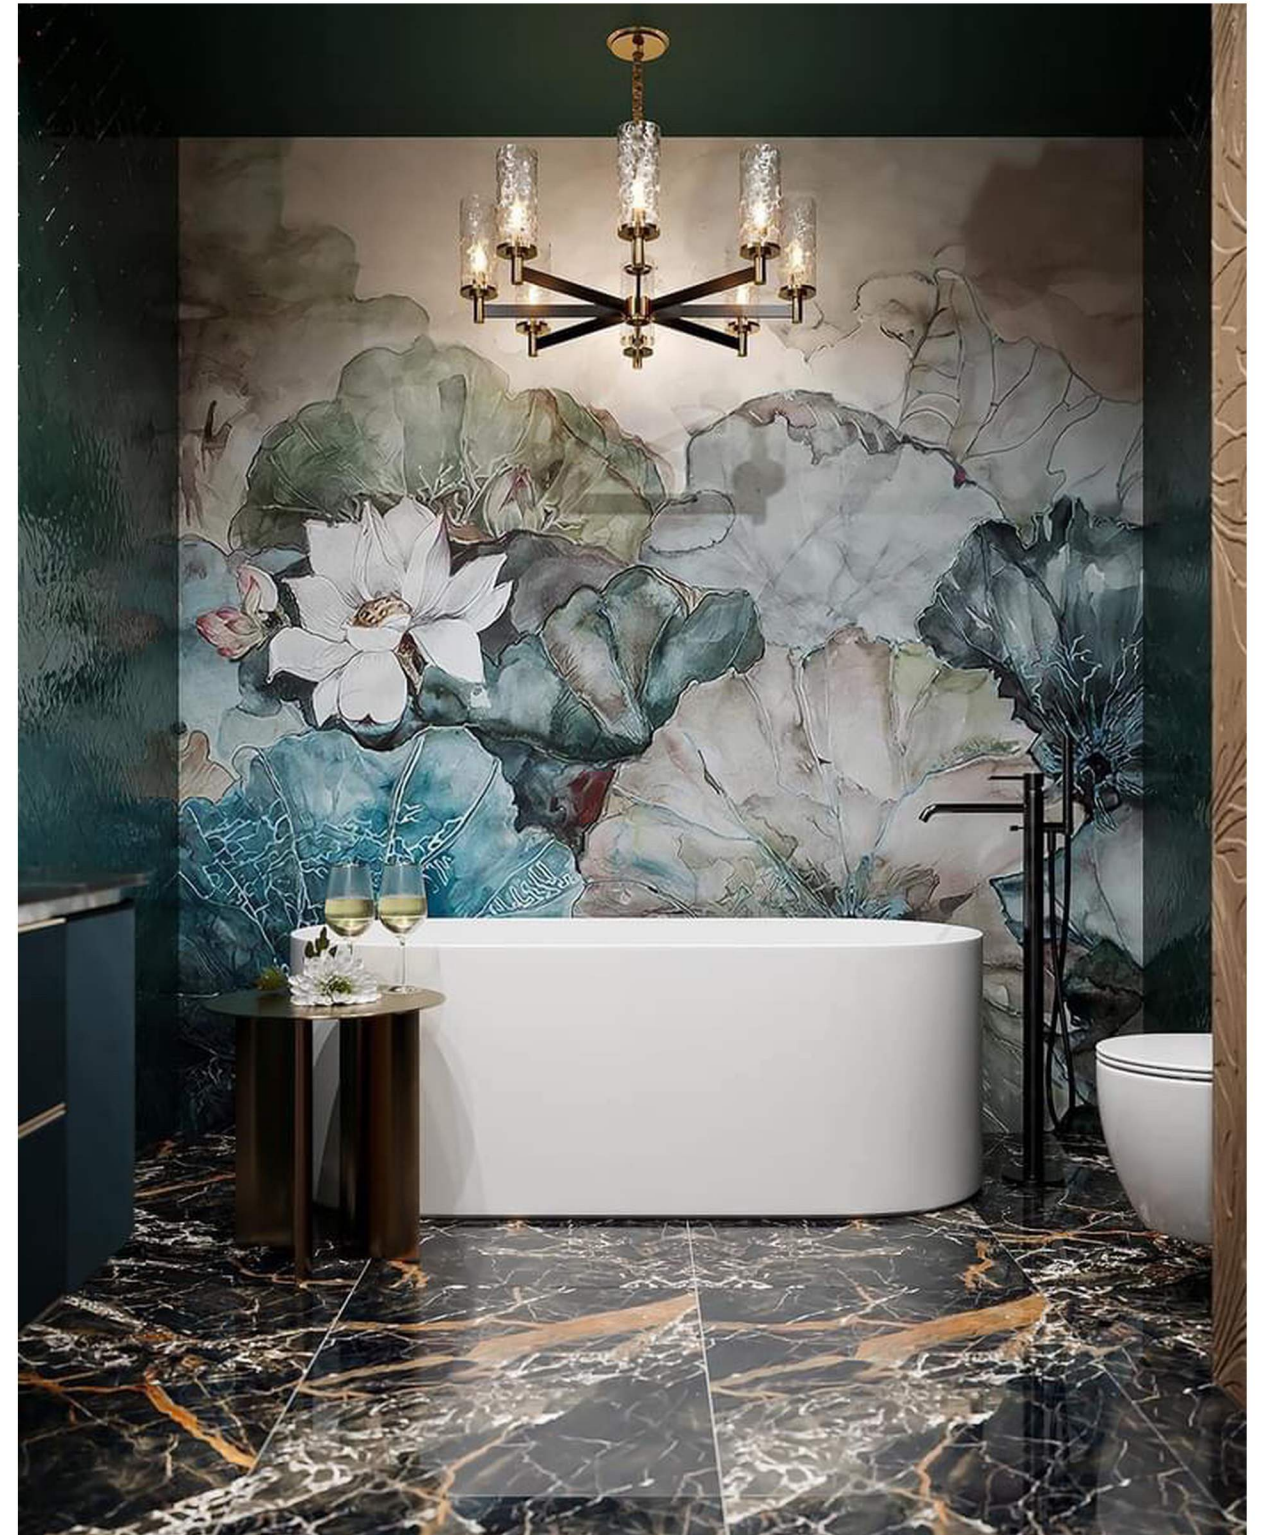

Wall&decò®

Wall&decò was born in 2005, from an intuition of Christian Benini, founder and creative director of the brand, originally an advertising photographer: in reproducing an image with large leaves to be used as a backdrop for a photographic set, he immediately perceives its high decorative value and possible declinations in the world of furniture.

Cutting-edge aesthetics, technical research and innovation are the pillars of Wall&decò on a daily basis. Wall&decò offers a design service with various levels of customization, ranging from the adaptation of colors and sizes of the graphics in the collection, to the development of entirely new subjects created specifically for the customer, satisfying even the most challenging project requirements.

caccaro

The company was founded with the aim of transforming the wall from a passive structural element to an active design presence, producing closet, cabinet and cupboard systems. Salvino Caccaro founded the company in the late 1950s in the province of Padua. His dream was to create furniture that could last through the years, combining style, beauty, functionality, and high-quality materials. The company quickly became one of the emblems of Made in Italy excellence throughout the world. The company did not only focus on the sleeping area but moved beyond the traditional concept of closet to explore the idea of the storage system itself. While Caccaro was given a more corporate structure, the company was able to maintain constant attention to quality and customization. Today, Caccaro designs and manufactures integrated furnishings to create unique and highly distinctive domestic spaces - from sleeping to living areas.

Containment from floor to ceiling, even in the center of the room. The WALLOVER pillars lend themselves to being used as a containment backdrop to separate your rooms.

The combination of modules with different functions creates the perfect solution for storing your entire wardrobe: in or out of sight, hanging or folded. Cabina is customisable in dimension and internal equipment: jewellery boxes, trouser racks, drawers and shoe shelves.

Everything how and where you want it. With Cabina you can transform every room into a small personal boutique.

The newest Architype™ System consists of Boiserie and Door. It dialogues with Freedhome® and Wallover® thanks to a perfect integration of finishes, dimensions and functionalities. The quality and tailoring of artisan carpentry meet the reliability and precision of Industry 4.0.

The System was born as an expression of furniture in an architectural key. It is linked to three core concepts:

Architectural: for free design that overcomes structural constraints, to create customised spaces.

Types: just as printed characters create a language, so Boiserie and Door create a new way of expressing interior design.

Archetype: focuses on the archetypes of the house, which determine the organisation of spaces, such as walls and doors.

qeeboo

Born and launched in 2016 in Milan by Stefano Giovannoni, Qeeboo is an Italian design brand that empowers self-expression with creativity. Its narrative objects are a result of a design culture that combines thought, vision and emotion with the purpose of bringing individuals into worlds in which they feel free to reconnect with their most creative side. Simultaneously, the ideas and products created want to relate to people's stories, populating their lives while giving new meanings to their everyday spaces. With a twist of pop, wonder and culture Qeeboo's creations are consciously thought to enhance the style of each individual bringing originality to the environment, arising a sense of surprise, still maintaining a rigorous attention to details and final high-quality.

"Giraffe in Love" is a dreamy giraffe holding a classic marie-therese chandelier. Available in different sizes, from 100 to 400 cm high, for indoor and outdoor (higher dimensions) uses.

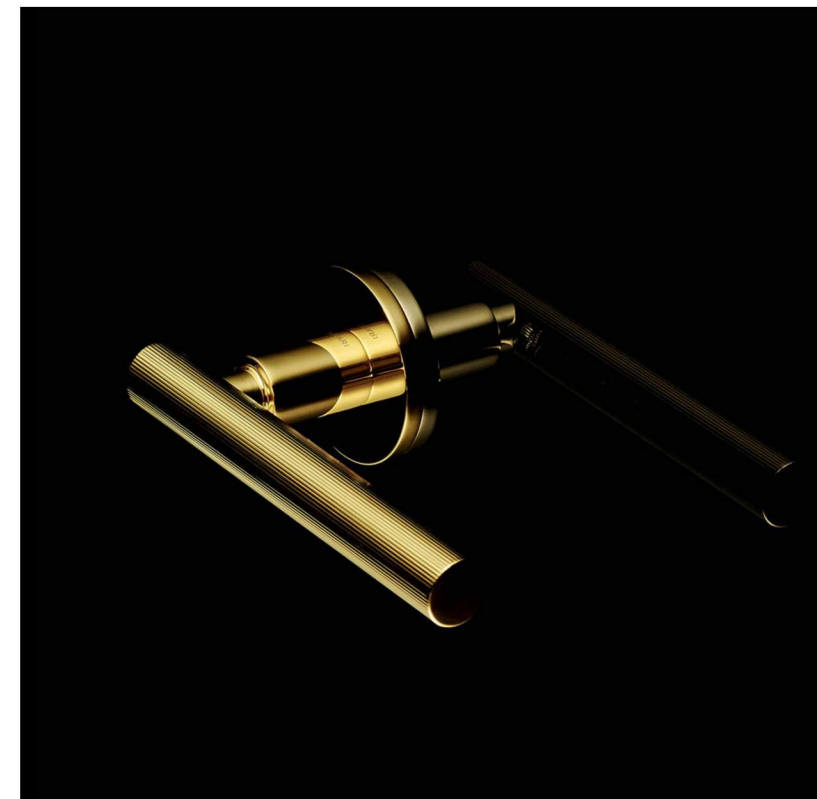

RABBIT CHAIR DOTS, DESIGN STEFANO GIOVANNONI

OLIVARI

Since 1911 Olivari has been manufacturing handles at its own factories in Italy. A distinctive feature at Olivari is the fact that the entire manufacturing process takes place exclusively at the Olivari factory in Borgomanero, northwest of Milan. Olivari products are not just Made in Italy, they are Made in Borgomanero, Made in Olivari.

From the 1930s, Olivari has collaborated with the most important architects and designers creating sculpted, dynamic, minimal, ironic and surprising handles.

door

Built on the solid foundation of an intergen-erational family business, Door is the only Italian company specializing in the production of textile folding doors.

As either an architectural element or a furniture device, Door folding doors are fully customizable according to the specific needs of the given spatial atmosphere and adaptable to a variety of both residential and nonresidential contexts. Its stylistic and functional novelty enables an expansive range of applications, from studios, offices and workplaces to museums, cultural spaces, schools and educational institutions, hospitality and catering facilities, commercial spaces and wellness centers.
